

Investment Contract Pool

Separate Account Report as of June 30, 2018

Objective

The MSRP Investment Contract Pool ("ICP") seeks to preserve principal value and provide a relatively stable rate of return comparable to intermediate fixed-income yields over two to five years.

Note: While this ICP Report is prepared on a quarterly basis, the monthly crediting rate is reported on the www.MarylandDC.com homepage.

Risks

This investment is not FDIC insured or guaranteed by the federal or state government. Like all investments the ICP has risks and may not meet its investment objectives, including the objective of a constant principal value. A detailed description of these risks is contained in the ICP overview document, available on the MSRP website, or on request. Investors should also note that the ICP is not a money market fund and has different risk characteristics than a money market fund.

Investment Overview

The ICP invests in a diversified portfolio of stable value contracts issued by insurance companies, banks, and other financial institutions, and a variety of fixed income instruments including U.S. Government and agency securities, mortgage-backed securities, asset-backed securities, and corporate bonds. Investors earn the average return received under all contracts in effect at any point in time. The ICP's return is affected by the general level of interest rates as well as by cash flows, including those from employer and employee contributions, withdrawals, and transfers into and out of the ICP. The average duration of the ICP's investments will be approximately two to four years. The average credit quality of the ICP's investments will generally be AA (or its equivalent)³, although individual securities or contracts purchased for the ICP may have a lower credit quality rating.

all income, realized and unrealized capital gains and losses and all annual fund operating expenses. Returns may have been impacted by the effect of compounding and have been rounded to the nearest basis point. The returns herein are not necessarily indicative of the returns that may be achieved over the longer term. There is no assurance that comparable returns will be achieved in the future or that the ICP's investment objective will be achieved. The results portrayed reflect the reinvestment of dividends and other earnings. Benchmark is 3 Year Constant Maturity Treasury. Investors cannot invest in an index.

Investment Contract Pool

Separate Account Report as of June 30, 2018

Strategy Overview

Assets in the Investment Contract Pool are held in trust for the benefit of participants of the MSRP. Participant investments made in the ICP are credited with a daily blended interest rate. Periodically an anticipated monthly rate is declared, but not guaranteed. This quoted rate is net of all fees and expenses directly related to the ICP. This average annual expense fee will vary, but is approximately 0.38% (\$3.78 per \$1,000), annualized. This fee does not include the monthly account fee of fifty-cents or the monthly asset fee assessed on all participants by the Maryland Board of Trustees ("Board") and Nationwide Retirement Solutions, which will total 0.14%, annualized.

The ICP typically invests in the following investments: (1) Short term cash investments for general account liquidity; (2) General Account Investment Contracts ("GICs" or "BICs"), which are issued by insurance companies or banks and maintain a constant principal valuation while earning interest; (3) Separate Account GICs, and (4) Synthetic GICs. Separate Account GICs and Synthetic GICs both allow for principal stability while earning interest. The key difference between GICs, and Synthetic GICs or Separate Account GICs, is that Synthetic GICs and Separate Account GICs have an associated fixed income portfolio managed by a fixed income advisor for the benefit of the ICP. The fixed income portfolio generates investment income to pay interest, and is combined with a benefit responsive investment contract issued by an insurance company, bank, or other high-quality financial institution, to help maintain the principal stability of the ICP.

ICP Investment Policy

The ICP is managed according to a detailed investment policy established by the Board, which is available upon request.
